

Caledon Green Development Standard: Draft Plan of Subdivision Checklist

Instructions

Applicants are required to complete the developer checklist during the Pre-Consultation (DART) Review and Formal Application phase. The Town of Caledon’s Green Development Standard Guidebook provides the metric requirements, submission requirements, specifications and applicable site exclusions, and resources to assist applicants in completing their GDS submission. Note that the checklist is a condensed version of the metrics, and should be completed using the GDS Guidebook as a reference to ensure completeness.

This checklist is primarily applicable to low-rise residential developments (i.e., detached, semis, and townhouses). For subsequent submissions, applicants are only required to complete the metrics that have not been approved by the Town of Caledon.
