

# PETER POPKIN, Ph.D., CAHP, MCIfA

*Principal Archaeologist, Technical Lead*

## Years of experience

20+

## Office of employment

*Richmond Hill, Ontario*

## Professional registrations

*Canadian Archaeological Association – Current Member*

*Ontario Archaeological Society – Current Member, Director of Heritage Advocacy 2013-2014*

## Project type

*Roads / Highways*

*Bridges*

*Transit Projects*

*Transmission Lines and Linear Corridors*

*Infrastructure Developments*

*Environmental Remediations*

*Urban & Greenfield Developments*

## Areas of expertise

*Qualified archaeologist with significant Stage 1 to 4 archaeological experience*

*Extensive experience with complex urban archaeology*

*Proven comprehensive understanding of the Ontario Heritage Act and the Ministry of Citizenship and Multiculturalism’s 2011 Standards and Guidelines for Consultant Archaeologists*

## Types of assessments

*Stage 1 to 4 Archaeological Assessments completed in supports of Provincial/ Municipal Environmental Assessments, Planning Act, Mining Act, Aggregate Act, Cemeteries Act, among other legislation*

## PROFILE

Dr. Popkin is a Principal Archaeologist and Technical Lead at WSP and he has over 23 years of professional experience in both consulting and academic archaeology within Canada and internationally. In Ontario he has successfully undertaken hundreds of consultant archaeology projects triggered by: the Environmental Assessment Act (individual and Class EAs, provincial and federal EAs), the Planning Act (subdivisions, site plans, re-zoning, official plan amendments, consent), the Environmental Protection Act (Renewable Energy Approvals O.Reg 359/09), as well as the Aggregates Resources Act (aggregate pit extensions), and has managed projects under the National Energy Board Act (now the Canadian Energy Regulator Act).

Dr. Popkin holds the position of Contract Manager for WSP’s Vendor of Record contract with Metrolinx for Emergent Archaeological Consulting Services (2019-2024) and holds the position of Principal Archaeologist for WSP’s Professional and Consultant Services Roster 2022-2024, Category 18: Archaeology contract with the City of Hamilton.

Dr. Popkin has lectured in archaeology at York University, the University of Toronto and Wilfrid Laurier University in Ontario, as well as University College London, King’s College London, and Birkbeck College, in the UK.

Dr. Popkin holds a **Professional Archaeology Licence (P362)** from the Ontario Ministry of Citizenship and Multiculturalism (MCM), is a Professional Member of the Canadian Association of Heritage Professionals (CAHP) and is a full Member of the Chartered Institute for Archaeologists (MCIfA). Dr. Popkin received his Ph.D. from the Institute of Archaeology, University College London, London, UK (2009).

## EDUCATION

Ph.D., Archaeology, Institute of Archaeology, University College London, London, England 2009

M.A., Anthropology and Archaeology, University of Saskatchewan, Saskatoon, Saskatchewan, Canada 2001

B.A. Honours, Classical and Near Eastern Archaeology, University of Saskatchewan, Saskatoon, Saskatchewan, Canada 1998

## PROFESSIONAL ASSOCIATIONS

Professional Archaeology Licence P362, Ontario Ministry of Citizenship and Multiculturalism MCM

Canadian Association of Heritage Professionals (Professional Member) CAHP

Chartered Institute for Archaeologists (Full Member) MCIfA

## PROFESSIONAL HISTORY

WSP (Formerly Wood E&I), Principal Archaeologist 2022 – Present

Wood Environment and Infrastructure Solutions (WSP Acquisition), Associate Archaeologist, Team Lead Apr 2020 – Sept 2022

Stantec Consulting Ltd., Associate Archaeologist 2017 – 2020

Golder Associates Ltd. Senior Archaeologist 2013 – 2017

## PETER POPKIN, Ph.D., CAHP, MCIfA

*Associate Archaeologist, Team Lead*

King's College London, London, UK, Visiting Lecturer	2005 – 2006
Department of Anthropology and Archaeology, University of Saskatchewan, Tutor/Marker	1998 – 2000

### **PROFESSIONAL EXPERIENCE**

#### *Environmental Assessments*

**Stage 1 Archaeological Assessment, City of Windsor National Urban Park Plan Windsor, ON (2022). Senior Reviewer (QA/QC)** - Completed Stage 1 Archaeological Assessment for the City of Windsor as part of the baseline studies to establish a National Urban Park in the City of Windsor, Ontario. The baseline studies were initiated under a Statement of Collaboration between the City of Windsor and Parks Canada and are currently considering 11 areas.

**Stage 1 Archaeological Assessment, Heritage Road Layover, Part of Lots 14 and 15, Concession 6 West of Hurontario Street (WHS), former Township of Chinguacousy, County of Peel, now City of Brampton, Regional Municipality of Peel, Ontario (2021-2022). Archaeology Task Lead and Senior Technical Reviewer (QA/QC)** – Stage 1 archaeological assessment as part of the Heritage Road Layover Project Transit Project Assessment Process (TPAP) in advance of the Metrolinx-led development of layover facility to accommodate increased service and support the need for additional train storage and maintenance as part of Metrolinx's commitment to GO Expansion.

**Stage 3 Archaeological Assessment, Heritage Road Layover H1 Site (AjGx-267), Located on Part of Lot 14, Concession 6 West of Hurontario Street (WHS), former Township of Chinguacousy, County of Peel, now City of Brampton, Regional**

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

**Municipality of Peel, Ontario (2022). Archaeology Project Director and Senior Technical Reviewer (QA/QC)** – Stage 3 archaeological assessment of the Euro-Canadian Heritage Road Layover H1 site (AjGx-267) as part of the Heritage Road Layover Project Transit Project Assessment Process (TPAP) in advance of the Metrolinx-led development of layover facility to accommodate increased service and support the need for additional train storage and maintenance as part of Metrolinx’s commitment to GO Expansion.

**Region of Waterloo, Stage 4 Archaeological Assessment and Stage 3 BSI: Fischer-Hallman Road Redevelopment, Kitchener, Ontario (2020-Ongoing). Senior Technical Reviewer (QA/QC)** - Mitigation of Stage 4 archaeological construction monitoring, Stage 4 excavation of a Woodland Village Site and Stage 3 Burial Site Investigation The project is being completed under the Environmental Assessment Act in support of a roadway redevelopment. The project involves a large team and working closely with Engineers, Region Staff and Indigenous Nations. In 2020, preliminary reporting was completed which enabled the Region to construct a temporary roadway on mitigated areas. Project includes Indigenous engagement and participation.

**Stage 2 & 4 Archaeological Assessments, Site AfHo-12, Federal Bridge Corporation Limited Blue Water Bridge Backup Power Modifications Project, Blue Water Bridge Border Crossing, Point Edward, City of Sarnia (2021-2022). Archaeology Project Manager, Senior Reviewer (QA/QC)** - Stage 2 archaeological construction monitoring and Stage 4 mitigation of development impacts for FBCL’s Blue Water Bridge Backup Power Modifications Project on Point Edward in the City of Sarnia.

**Stage 1 Archaeological Assessment, Bradley Avenue Extension, Part of Lot 29-31, Concession 2 in the former Township of Westminster, now in the City of London, Middlesex County, Ontario (2022). Archaeology Project Manager, Senior Reviewer (QA/QC)** - Stage 1 archaeological assessment completed on behalf of the City of London in support of the Environmental Assessment process associated with the Bradley Avenue Extension Project.

**Stage 1-2 Archaeological Assessment, South Niagara Falls Wastewater Treatment Plant, Phase 2 Lands, Part of Lots 7 to 10 Broken Front on Chippewa Creek, Geographic Township of Willoughby, Former County of Welland, now in the City of Niagara Falls, Regional Municipality of Niagara, Ontario (2022). Senior Reviewer (QA/QC)** - Stage 1-2 archaeological assessment of 81 hectares of land for the preferred South Niagara Falls Wastewater Treatment Plant and associated infrastructure on behalf of the Region of Niagara.

**Stage 2 Archaeological Assessment, South Niagara Falls Wastewater Treatment Plant & Blackhorse Sewage Pumping Station, Part of Lot 94, Geographic Township of Thorold, Welland County, now 701 Allanburg Road, City of Thorold, Regional Municipality of Niagara, Ontario (2022). Senior Reviewer (QA/QC)** - Stage 2 archaeological test pit survey and associated reporting in advance of the construction of the Blackhorse Sewage Pumping Station on behalf of the Region of Niagara.

**Marine Archaeological Assessment, South Niagara Falls Wastewater Treatment Plant, Phase 2 Lands Welland River along Lots 7 to 9 Broken Front on Chippewa Creek, Geographic Township of Willoughby, Former County of Welland, now the City of Niagara Falls, Regional Municipality of Niagara, Ontario (2022). Licensed Archaeologist and Senior Reviewer (QA/QC)** - Marine Archaeological Assessment of a portion of the Welland River on behalf of the Region of Niagara in advance of construction

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

of the proposed South Niagara Falls Wastewater Treatment Plant that will include placement of an outfall pipe, which may result in disturbance to the existing riverbed.

**Stage 1 Archaeological Assessment, Carolyn Creek Erosion Control Project, City of Mississauga (2022). Senior Reviewer (QA/QC)** - Wood was retained by the City of Mississauga to conduct a Stage 1 archaeological assessment in support of the Carolyn Creek Erosion Project Municipal Class Environmental Assessment, located along Barbertain Road.

**Stage 1 Archaeological Assessment, Mimico Creek Erosion Control Projects, City of Mississauga (2021-2022). Senior Reviewer (QA/QC)** - To support a Municipal Class Environmental Assessment for erosion control works and watercourse improvements on Mimico Creek, the City of Mississauga retained Wood to complete a Stage 1 archaeological assessment.

**Stage 1 & 2 Archaeological Assessment, Bradley Park, City of Windsor (2021). Senior Reviewer (QA/QC)** - Wood was retained by the City of Windsor to conduct a Stage 1 & 2 archaeological assessment in support of future re-development of Bradley Park. The project was completed within budget and schedule.

**Stage 1 Archaeological Assessment, Lisgar District Stormwater Pumping Station Municipal Class Environmental Assessment, City of Mississauga, Peel Region (2021). Archaeology Project Director and Senior Reviewer (QA/QC)** - Wood was retained by the City of Mississauga to conduct a Stage 1 archaeological assessment as part of a Municipal Class Environmental Assessment for detailed engineering design and associated construction of a stormwater pumping station. Indigenous engagement was completed as part of this assessment.

**Stage 3 Archaeological Assessment of Site AjGw-639, Located on Part of Lot 6, Concession 6, in the Former Township of Trafalgar, County of Halton, now in the Town of Milton, Region of Halton, Ontario (2021). Senior Reviewer (QA/QC)** - Stage 3 archaeological assessment of a small Euro-Canadian archaeological site as part of the Municipal Class Environmental Assessment process for the Regional Municipality of Halton.

**Stage 4 Archaeological Mitigation of Site AjGw-639, Located on Part of Lot 6, Concession 6, in the Former Township of Trafalgar, County of Halton, now in the Town of Milton, Region of Halton, Ontario (2021). Senior Reviewer (QA/QC)** - Stage 4 archaeological mitigation of a small Euro-Canadian archaeological site as part of the Municipal Class Environmental Assessment process for the Regional Municipality of Halton.

**Stage 1 Archaeological Assessment in Support of a Shoreline Protection Project at 36 City of Hamilton Waterfront Properties, City of Hamilton, ON (2020). Senior Reviewer (QA/QC)** - Stage 1 archaeological assessment in advance of planned City of Hamilton shoreline protection measures along the shores of Lake Ontario and within the Hamilton Harbour for City owned waterfront assets.

**Stage 4 Archaeological Construction Monitoring Adjacent to Site AhGx-732, City of Hamilton (2018-2020). Senior Reviewer (QA/QC)** - Wood was retained by the City of Hamilton to conduct Stage 4 construction monitoring adjacent to the Bullock's Corners Site (AhGx-732) and a historical period cemetery during roadway improvements at the intersection of Highway 8 and Brock Road. Impacts to any potential deeply buried archaeological resources or human interments were avoided through the monitoring of the mechanical asphalt removal, demolition and removal of two concrete islands, relocation of underground utilities, stabilization of drainage wall, and installation of catch basins. No

artifacts were encountered, and it could be confirmed that the new construction had not impacted AhGx-732 nor the adjacent cemetery.

**Stage 4 Mitigation of Development Impacts Portfolio, Southwest Sports Complex Project, City of Brantford (2018-2020). Senior Reviewer (QA/QC)** - Wood was retained by the City of Brantford to complete Stage 4 mitigation of development impacts at seven Indigenous archaeological sites as part of the Southwest Sports Complex Project. Archaeology in the project area has demonstrated continued land use by Indigenous people for several thousand years (8,500 BCE – 900 BCE) with numerous campsites adjacent to—and in some cases overlapping—each other. By working collaboratively with the City of Brantford, the MCM and Indigenous communities, Wood could expedite the Stage 4 fieldwork to prevent project delays; however, in 2020 the City of Brantford suspended the proposed development.

**Stage 4 Mitigation of Development Impacts, Albion Falls Site (AhGw-540), City of Hamilton (2018-2020). Senior Reviewer (QA/QC)** - Wood was retained by the City of Hamilton in 2018 to conduct a Stage 4 mitigation of development impacts at the Albion Falls Site (AhGw-540), a mill site in operation from the early 19th century to early 20th century. The project was initiated prior to construction of a trail access and viewing platform and based on Wood's previous work as part of Stage 1-2 and Stage 3 archaeological assessments. Over 3,800 artifacts were recovered during the Stage 4 fieldwork and the site is considered fully mitigated.

**Stage 4 Archaeological Mitigation, Location 2 (AlGm-17), Brookside Youth Detention Centre, Part of Lot 14, Concession A, former Geographic Township of Hamilton, now Town of Cobourg, County of Northumberland, Ontario (2020). Project Manager and Senior Reviewer (QA/QC)** – Stage 4 mitigation of the Euro-Canadian archaeological site Location 2 (AlGm-17) through excavation and long-term avoidance and protection within the Brookside Youth Centre, Cobourg, property on behalf of Infrastructure Ontario as due diligence.

**Stage 4 Archaeological Mitigation, Location 5 (AlGm-20), Brookside Youth Detention Centre, Part of Lot 14, Concession A, former Geographic Township of Hamilton, now Town of Cobourg, County of Northumberland, Ontario (2020). Project Manager and Senior Reviewer (QA/QC)** – Stage 4 mitigation of the Euro-Canadian archaeological site Location 5 (AlGm-20) through excavation and long-term avoidance and protection within the Brookside Youth Centre, Cobourg, property on behalf of Infrastructure Ontario as due diligence.

**Stage 3 Archaeological Assessment, Brookside Youth Centre, 390 King Street East Cobourg, Ontario, Part of Lot 13 and Part of Lot 14, Concession A, former Geographic Township of Hamilton, now Town of Cobourg, County of Northumberland, Ontario (2020). Project Manager and Senior Reviewer (QA/QC)** – Stage 3 archaeological assessment of five Euro-Canadian archaeological sites located within the Brookside Youth Centre, Cobourg, property on behalf of Infrastructure Ontario as due diligence.

**Stage 1 Archaeological Assessment and Stage 2 Property Assessment, Mountainbrow Trail #4 Initiative Redevelopment Project, City of Hamilton (2020). Senior Reviewer (QA/QC)** - In 2020, Wood was retained by the City of Hamilton to conduct Stage 1 and subsequent Stage 2 archaeological assessments in support of the Mountainbrow Trail #4 Initiative Redevelopment Project. The objective of the project was to redevelop the existing trail to conform to the City of Hamilton's Mountainbrow

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

Recreational Trail Masterplan and the archaeological studies were completed in support of a Municipal Class Environmental Assessment.

**Stage 1-2 Archaeological Assessment: Ottawa Correctional Facility, Ministry of Infrastructure Public Work Class Environmental Assessment 3995 and 4055 Russell Road, Part of Lots 3 to 5, Concession 6 from the Rideau River, Geographic Township of Gloucester, former Carleton County, now City of Ottawa, ON (2020). Project Manager and Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 test pit survey and associated reporting for Infrastructure Ontario as part of their due diligence process.

**Stage 1-2 Archaeological Assessment: 311 Amber Street, Markham, Parking Lot Expansion, Part of Lots 3 and 4, Concession 4, former Markham Township, York County, now Town of Markham, Regional Municipality of York, ON (2019). Archaeology Project Manager and Licensed Archaeologist** - Stage 1 background study and Stage 2 test pit survey and associated reporting in support of a parking lot expansion. The assessment was necessary to fulfill Infrastructure Ontario requirements for development within Hydro One lands.

**Stage 2 Archaeological Assessment: Proposed Ridge Landfill Expansion Environmental Assessment, Part of Lots 13, 14 and 16, Concession 4 West of Communication Road, Geographic Township of Harwich, County of Kent, now Municipality of Chatham-Kent, ON (2019). Project Manager and Senior Reviewer (QA/QC)** - Stage 2 archaeological pedestrian and test pit survey in advance of a proposed landfill expansion.

**Stage 2 Archaeological Assessment: Proposed Ridge Landfill Expansion Environmental Assessment – Additional Assessment, Part of Lots 13, 14 and 16, Concession 4 West of Communication Road, Geographic Township of Harwich, County of Kent, now Municipality of Chatham-Kent, ON (2019). Project Manager and Senior Reviewer** - Stage 2 archaeological pedestrian and test pit survey on new lands the client required in advance of a proposed landfill expansion.

**Ministry of Natural Resources and Forestry, Stage 1 Terrestrial and Marine Archaeological Assessment: Rondeau Provincial Park, ON (2019). Project Manager and Senior Reviewer (QA/QC)** - Stage 1 desktop assessment for Ontario Parks as part of their due diligence process for their land holdings.

**Ministry of Infrastructure Public Work Class Environmental Assessment, Stage 1-2 Archaeological Assessment: Deerfield Land, Oakville, ON (2019). Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 1-2 test pit survey and associated reporting for Infrastructure Ontario as part of their due diligence on their owned and/or managed Deerfield Land in Oakville, Ontario.

**Stage 1-2 Archaeological Assessment, Niagara River Recreational Trail: Riverwalk to Bridgeburg Project, Lots 3 and 4, Concession 1, Niagara River, former Township of Bertie, Fort Erie, ON (2019). Project Manager** - Stage 1-2 test pit survey and associated reporting on behalf of the Niagara Parks Commission in advance of the construction of a 3 m wide 750 m long asphalt recreational trail on their lands in Fort Erie, Ontario.

**Stage 1 Archaeological Assessment of Fenelon Falls Work Yard and Naylor Road Work Yard, Lot 21, Concession 10 and Lot 7 Concession 5, Fenelon Township, Victoria County, City of Kawartha Lakes, ON (2018). Licensed Archaeologist and**

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

**Senior Reviewer (QA/QC)** - Stage 1 background study associated with construction yards required for the development of a new natural gas pipeline.

**Stage 2 Archaeological Assessment, Proposed Pipelines to Serve the Community of Fenelon Falls, City of Kawartha Lakes and Brock Township, ON (2018). Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 2 test pit survey and associated reporting in advance of the development of a new natural gas pipeline.

**Stage 1 Archaeological Assessment, City of Toronto Stormwater Runoff Quality Control and Investigation of Basement Flooding Area 35, Municipal Class Environmental Assessment, City of Toronto, ON (2018). Senior Reviewer (QA/QC)** - Large urban Stage 1 background study in advance of a major municipal basement flooding prevention initiative.

**Stage 1 Archaeological Assessment, City of Toronto Stormwater Runoff Quality Control and Investigation of Basement Flooding Area 37, Municipal Class Environmental Assessment, City of Toronto, ON (2018). Senior Reviewer (QA/QC)** - Large urban Stage 1 background study in advance of a major municipal basement flooding prevention initiative.

**Stage 1 and 2 Archaeological Assessment, Milverton Expansion Pipeline Project, Additional Work near Rostock and Wartburg due to Proposed Line Changes Perth County, ON (2018). Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 test pit survey and associated reporting in advance of the development of a new natural gas pipeline.

**Stage 1 Archaeological Assessment: Colchester Harbour and Marina, Environmental Assessment, Town of Essex, ON (2017). Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 1 background study and associated reporting in advance of the development of the Colchester Harbour and Marina environment.

**Stage 1 Marine Archaeological Assessment: Proposed Port Burwell Harbour Townhouse Development, Municipality of Bayham, ON (2017). Senior Reviewer** - Senior review for a Marine Stage 1 background study in advance of a townhouse development adjacent to Port Burwell harbor.

**Stage 1 and Stage 2 Archaeological Assessment, Milverton Expansion Pipeline Project, Additional Work near Rostock and Wartburg, Perth County, ON (2017). Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 archaeological survey as part of requirements of the Ontario Energy Board Environmental Guidelines in advance of new natural gas pipeline expansion.

**Stage 1 Archaeological Assessment for Living Arts Drive, Municipal Class Environmental Assessment, Mississauga, ON (2017). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - Stage 1 background study as part of an MCEA in advance of a roadway extension project through an urban area within Mississauga.

**Stage 1 Archaeological Assessment conducted as part of the Peel Region East to West Wastewater Diversion Class Environmental Assessment, Peel Region, ON (2016). Archaeology Project Manager, Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 1 background study as part of an MCEA in advance of the construction of a major Wastewater Diversion system in Peel Region.

**Stage 2 Archaeological Assessment conducted as part of the Peel Region East to West Wastewater Diversion Class Environmental Assessment, Peel Region, ON (2016). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer**

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

**(QA/QC)** - Stage 2 archaeological survey as part of an MCEA in advance of the construction of a major Wastewater Diversion system in Peel Region.

**Stage 1 Archaeological Assessment prior to Portage Parkway widening and extension City of Vaughan, ON (2016). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - Stage 1 background study as part of an MCEA in advance of a roadway widening and extension project through an urban area within the City of Vaughan.

**Stage 1 Archaeological Assessment, Municipal Class EA, Regional Road 96 (Pelham Road), between Wessel Drive and Regional Road 28 (Fifth Street Louth), part of Lots 5-10, Concession 8, former Geographic Township of Louth, Lincoln County, now in the Town of Lincoln and City of St. Catharines, ON (2016). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - Stage 1 background study as part of an MCEA in advance of a roadway widening project within the Town of Lincoln and the City of St. Catharines.

**Stage 2 Archaeological Assessment prior to road improvements: Stanley Avenue between Thorold Stone Road and Valley Way, Niagara Falls Niagara Falls, ON (2016). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - Stage 2 archaeological survey as part of an MCEA in advance of a roadway widening project within the city of Niagara Falls.

**Stage 1 Archaeological Assessment prior to roadway widening and drainage improvements Niagara Falls, ON (2016). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - Stage 1 background study as part of an MCEA in advance of a roadway widening and drainage improvement project for Stanley Avenue within the city of Niagara Falls

**Stage 1 and 2 Archaeological Assessment, Municipal Class Environmental Assessment of Countryside Drive, Brampton prior to infrastructure development Brampton, ON (2014). Project Manager, Licensed Archaeologist and Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 archaeological survey as part of an MCEA in advance of the infrastructure improvement of Countryside Drive in Brampton.

**Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)**

- Stage 1 Archaeological Assessment, Queen Victoria Park, Part of Lots 129, 144, 159, 160, 174, 175 and 190-193, former Geographic Township of Stamford, now City of Niagara Falls, Regional Municipality of Niagara, Ontario (2016)
- Stage 2 Archaeological Assessment, New Floral Showhouse Watermain Installation, Queen Victoria Park, Niagara Falls, Ontario (2016)
- Stage 1 and 2 Archaeological Assessment of a portion of the Lakeshore-Royal Windsor Hydro Corridor in advance of the City of Mississauga's Multi-Use Trail East construction Peel Region, Ontario (2015)
- Stage 1-2 Archaeological Assessment, Municipal Class Environmental Assessment for the Warton Wastewater Treatment System Township of Georgian Bluffs, County of Grey (2015)
- Stage 1 Archaeological Assessment, Grandview Beach and Paradise Point, Lot 19, Concession 6 and Part of Lots 18, 19 and 20, Concession 5, Township of Tay, Simcoe County, Ontario (2015)

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Environmental Assessments - Transit Project Assessment Process (TPAP) and Transportation Master Plan (TMP)*

**Stage 2 Archaeological Assessment of Scarborough SWS Additional Lands and Stage 4 Archaeological Mitigation of Site BbGv-57 in Gilford Paralelling Station Additional Lands, Metrolinx GO Rail Network Electrification Project, Town of Innisfil, Simcoe County (2020-2021). Archaeology Project Director, Senior Reviewer (QA/QC)** - Wood was retained by Metrolinx to complete two archaeological assessments to support the GO Rail Network Electrification Project, triggered under the Transit Project Assessment Process (TPAP) under Ontario Regulation (O. Reg.) 231/08, Transit Projects and Metrolinx Undertakings. The first was a Stage 2 property assessment that involved test-pit survey of vegetated areas in the project footprint associated with the Scarborough SWS Additional Lands. The assessment involved Indigenous engagement and was completed within budget and schedule. The second was a Stage 4 mitigation of development impacts at the Gilford Station Site (BbGv-57), a historical railway station. The Stage 4 mitigation included Indigenous engagement and was completed on budget and schedule.

**Stage 1 Archaeological Assessment Finch West Goods Transportation Master Plan (TMP), City of Toronto and City of Vaughan, Ontario (2021). Archaeology Project Manager** - Stage 1 archaeological assessment of 135 hectares of land including 35 short-listed options for improvement works, in support of the Transportation Master Plan (TMP) for the Finch West corridor within the City of Toronto and the City of Vaughan.

**Stage 1 Archaeological Assessment Waterfront East LRT Union Station to Queens Quay Link, Part of Lots 20 and 21, Broken Front Concession, formerly Township of York, County of York, now City of Toronto, ON (2020-2021). Archaeology Lead, Senior Reviewer (QA/QC)** - Stage 1 archaeological assessment for the Toronto Transit Commission (TTC) triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) in accordance with the Transit Project Assessment Project (TPAP).

**Stage 1 Archaeological Assessment Yonge North Subway Extension, City of Toronto and York Region, ON (2020-2021). Archaeology Lead, Senior Reviewer (QA/QC)** - Stage 1 archaeological assessment in support of the Yonge North Subway Extension Environmental Project Report (EPR) Addendum. This study was undertaken for Metrolinx and triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) in accordance with the Transit Project Assessment Project (TPAP).

**Stage 1 Archaeological Assessment Scarborough Subway Extension, City of Toronto, ON (2020-2021). Archaeology Lead, Senior Reviewer (QA/QC)** - Stage 1 archaeological assessment in support of the Scarborough Subway Extension Transit Project Assessment Project (TPAP) Addendum. This study was undertaken for Metrolinx as part of the environmental due diligence required under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) in accordance with the Transit Project Assessment Project (TPAP) process.

**Stage 2 Archaeological Assessment Galloway Road Grade Separation, Part of Lots 12 and 13, Concession D, Geographic Township of Scarboro, York County, now in the Administrative Division of Scarborough, City of Toronto, ON (2020). Archaeology Project Director, Senior Reviewer (QA/QC)** - Stage 2 archaeological assessment prior to the drilling of geotechnical boreholes required in two areas of previously identified archaeological potential. This study was undertaken for Metrolinx and triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Lakeshore East Corridor Project Transit Project Assessment Process (TPAP).

**Stage 1 Archaeological Assessment, Network Wide Structures Project - Clubinis Creek Bridge Expansion Barrie Rail Corridor, Mile 32.00, Part of Lots 87, 88, and 89 Concession 1 East of Yonge Street, Former Geographic Township of Whitchurch,**

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

**County of York, Now in the Town of Newmarket, Regional Municipality of York, ON (2020). Senior Reviewer (QA/QC)** - Stage 1 background study undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Barrie Rail Corridor Expansion Project Transit Project Assessment Process (TPAP).

**Stage 1 Archaeological Assessment, Network Wide Structures Project – Islington Avenue Bridge Modification, Kitchener Rail Corridor, Mile 10.41, Part of Lot 24, Road Allowance Between Concessions A & B Fronting on the Humber, Geographic Township of Etobicoke, County of York, Now in Etobicoke, City of Toronto, ON (2020). Senior Reviewer (QA/QC)** - Stage 1 background study undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Kitchener Rail Corridor Expansion Project Transit Project Assessment Process (TPAP).

**Stage 1 Archaeological Assessment, Network Wide Structures Project – McNaughton Road Grade Separation, Barrie Rail Corridor, Mile 18.49, Part of Lot 22, Concession 3, Former Geographic Township of Vaughan, County of York, Now in the City of Vaughan, ON (2020). Senior Reviewer (QA/QC)** - Stage 1 background study undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Barrie Rail Corridor Expansion Project Transit Project Assessment Process (TPAP).

**Stage 1 Archaeological Assessment, Network Wide Structures Project - Wellington Street East Grade Separation, Part of Lots 79, 80 and 81, Concession 1 East of Yonge Street, Geographic Township of Whitchurch, County of York, Now in the Town of Aurora, York Region, ON (2020). Senior Reviewer (QA/QC)** - Stage 1 background study undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Barrie Rail Corridor Expansion Project Transit Project Assessment Process (TPAP).

**Stage 1 Archaeological Assessment Bowmanville Corridor Expansion Project (Thornton CP Grade Separation) Part of Lots 16 and 17, Concession 1, Geographic Township of Whitby, former Ontario County, now City of Oshawa, Regional Municipality of Durham, ON (2017-2019). Licensed Archaeologist** - Stage 1 Archaeological Assessment for the Lake Shore East Rail Corridor Expansion Project in the City of Oshawa / Regional Municipality of Durham, Ontario, which includes grade separation at the existing at-grade road-rail crossing along the Lake Shore East Rail Corridor (Bowmanville Extension). This assessment includes an approximately one kilometre long stretch of Thornton Road South. This archaeological assessment was conducted in accordance with the Environmental Assessment Act, as per Ontario Regulation 231/08 – Transit Projects and Metrolinx Undertakings, and the Transit Project Assessment Process (TPAP).

**Stage 1 and 2 Archaeological Assessment Markham GO Station-Snyder Drive Realignment Project, Part of Lot 12 and Lot 13, Concession 7, Geographic Township of Markham, York County, now City of Markham, ON (2015). Licensed Archaeologist** - Stage 1 and 2 Archaeological Assessment for the proposed rehabilitation of the Markham GO station and realignment of Snyder Drive. This archaeological assessment was conducted in accordance with the Environmental Assessment Act, as per Ontario Regulation 231/08 – Transit Projects and Metrolinx Undertakings, and the Transit Project Assessment Process (TPAP).

**Stage 2 Archaeological Assessment Metrolinx Niagara Rail Service Expansion Lewis Road Layover Facility Part of Lots 7 and 8, Concession 1, Formerly Saltfleet Township, Wentworth County, now City of Hamilton, ON (2014). Licensed Archaeologist** - Stage 2 Archaeological Assessment of the proposed site of the Lewis Road Layover Facility for the Metrolinx Niagara Rail Service Expansion, is approximately 17.6 hectares in area and is situated west of Lewis Road and north of Barton Street. This archaeological assessment was conducted in accordance with the Environmental

#### *Marine Archaeological Assessments*

**Marine Archaeological Assessment (License 2021-20), Cootes Paradise, Princess Point Embayment Located in part of Lots 20-21, Concessions 1 & 2 in the Geographic Township of Barton, Wentworth County, Now in the City of Hamilton, Ontario (2021-2023). Archaeology Task Lead and Senior Technical Reviewer (QA/QC)** – Marine Archaeological Assessment as part of the remediation workplan for Chedoke Creek. This assessment was triggered by an MECP Director’s Order: 1-PE3L3 under the Environmental Protection Act and Ontario Water Resources Act and was conducted prior to dredging.

**Marine Archaeological Assessment (License 2021-22), South Niagara Falls Wastewater Treatment Plant, Phase 2 Lands, Welland River along Lots 7 to 9 Broken Front on Chippewa Creek, Geographic Township of Willoughby, Former County of Welland, now the City of Niagara Falls, Regional Municipality of Niagara, Ontario (2021-2022). Archaeology Task Lead and Senior Technical Reviewer (QA/QC)** – Marine Archaeological Assessment on behalf of Niagara Region to complete cultural heritage and archaeological consulting services in support of the Schedule “C” Municipal Class Environmental Assessment for the proposed South Niagara Falls

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

Wastewater Treatment Plant (WWTP) and associated infrastructure in the City of Niagara Falls and City of Thorold, Niagara Region, Ontario.

*Renewable Energy*

**Stage 1-2 Archaeological Assessment, Proposed Solar Development on the Veurink Lands Renewal Energy Approval (O.Reg 359/09) Haldimand County, ON.**

**Archaeology Project Manager and Licensed Archaeologist** - Archaeology Project Manager and Licensed Archaeologist for Stage 1-2 Archaeological Assessment.

**Disco Road Organics Processing Facility, Toronto, ON (2015). Archaeology Project Manager and Licensed Archaeologist** - Archaeological assessment of potential

undertaken to meet MCM requirements in support of a Renewable Energy Approval associated with the Disco Road Organics Processing Facility, a City of Toronto biogas facility situated atop a landfill.

**Ontario Wind Turbines, ON (2013-2015). Senior Archaeologist** - Archaeological support for large wind turbine energy developments in southwestern Ontario including the Samsung Pattern Armow Wind Energy Project, Bruce County

*Oil and Gas Midstream*

**Stage 1 and 2 Archaeological Assessment Portfolio, Imperial Oil Integrity Dig, Multiple Locations in Southwestern Ontario (2019-2020). Archaeology Project Director, Senior Review (QA/QC)** - Multiple Stage 1 & 2 archaeological assessments associated with pipeline integrity work for Imperial Oil Limited along the Sarnia Products Pipe Line (SPPL) Nominal Pipe Size (NPS) 12 Waterdown to Finch corridor as a due diligence measure to avoid potential impacts to archaeological resources. Integrity Dig Locations: 1-6460-2018 (Dig 1), 2-40590-2018 (Dig 2), 117-14780-2018 (Dig 117), 118-45830-2018 (Dig 118) (2020).

**Stage 1 and 2 Archaeological Assessment Portfolio, Imperial Oil Integrity Dig, Multiple Locations in Southwestern Ontario (2019-2020). Licensed Archaeologist, Senior Review (QA/QC)** - Multiple Stage 1 & 2 archaeological assessments associated with pipeline integrity work for Imperial Oil Limited along the Sarnia Products Pipe Line (SPPL) Nominal Pipe Size (NPS) 12 Waterdown to Finch corridor as a due diligence measure to avoid potential impacts to archaeological resources. Integrity Dig Locations: 122-29230-2018 (Dig 122), 123-41370-2018 (Dig 123), 124-43800-2018 (Dig 124), 125-17950-2018 (Dig 125), 126-38280-2018 (Dig 126), 127-13830-2018 (Dig 127), 128-202040-2018 (Dig 128), 129-28110-2018 (Dig 129) (2020).

**Stage 1 and 2 Archaeological Assessment Portfolio, Imperial Oil Integrity Dig, Multiple Locations in Southwestern Ontario (2019-2020). Senior Review (QA/QC)** - Multiple Stage 1 & 2 archaeological assessments associated with pipeline integrity work for Imperial Oil Limited along the Sarnia Products Pipe Line (SPPL) Nominal Pipe Size (NPS) 8 (Molson Jet Fuel) corridor as a due diligence measure to avoid potential impacts to archaeological resources. Integrity Dig Location: 11-2630-2018 (Dig 11), 12-3850-2018 (Dig 12), 13-11190-2018 (Dig 13), 14-570-2018 (Dig 14) (2020).

**Stage 1 and 2 Archaeological Assessment Portfolio, Imperial Oil Integrity Dig, Multiple Locations in Southwestern Ontario (2019-2020). Licensed Archaeologist, Senior Review (QA/QC)** - Multiple Stage 1 & 2 archaeological assessments associated with pipeline integrity work for Imperial Oil Limited along the Sarnia Products Pipe Line (SPPL) Nominal Pipe Size (NPS) 8 (Molson Jet Fuel) corridor as a due diligence measure to avoid potential impacts to archaeological resources. Integrity Dig Location: 5-4480-2018 (Dig 5), 6-6390-2018 (Dig 6), 7-6520-2018 (Dig 7), 15-15208-2018 (Dig 15) (2020).

**Archaeology Project Manager, Licensed Archaeologist**

— Stage 1-2 Archaeological Assessment: Proposed Natural Gas Pipeline to Serve Southern Bruce, Temporary Mainline Components, Parts of Various Lots and

Concessions, Multiple Lower Tier Municipalities, Bruce and Grey Counties, ON (2019)

- Stage 2 Archaeological Assessment: Proposed Natural Gas Pipeline to Serve Southern Bruce, Mainline Component. Geographical Townships of Bruce, Greenock, Brant, Elderslie, Bentinck, and Sullivan, now Municipality of Kincardine, Municipality of Brockton, Municipality of Arran-Elderslie, Municipality of West Grey, and Township of Chatsworth, Bruce and Grey Counties, ON (2019)
- Stage 3 Archaeological Assessment: The McCurdy Site (BbHh-11), Southern Bruce Natural Gas Pipeline Project, Part of Lot 5, Concession 1, Geographic Township of Elderslie, now Municipality of Arran-Elderslie, Bruce County, ON (2019)
- **Stage 1-2 Archaeological Assessment, Proposed Pipeline to Serve the Community of Fenelon Falls, Additional Temporary Work Spaces - Sunderland Extension. Parts of Various Lots and Concessions, Geographic Township of Brock, now part of the Regional Municipality of Durham, and the Geographic Township of Mariposa, now the City of Kawartha Lakes, ON (2019).** A Stage 1-2 archaeological assessment for four temporary work spaces (TWS) and a construction yard associated with the Sunderland Extension of the Proposed Pipeline to serve the community of Fenelon Falls on behalf of Enbridge Gas.
- **Stage 1-2 Archaeological Assessment, Proposed Pipeline to Serve the Community of Fenelon Falls, Additional Temporary Workspaces TWS5 and TWS6 and Odorant Remediation Area - Sunderland Extension. Part of Lot 19 and 20, Concession 5, and Lot 19, Concession 6, Geographic Township of Brock, former Ontario County, now Regional Municipality of Durham, ON (2019).** A Stage 1-2 archaeological assessment for two temporary work spaces (TWS), TWS5 and TWS6, and one temporary remediation area (Odorant Remediation Area) associated with the Network 4310 Low Odorant Remediation project as part of a proposed Enbridge natural gas pipeline for the Sunderland

## PETER POPKIN, Ph.D., CAHP, MCIfA

*Associate Archaeologist, Team Lead*

---

Reinforcement from Sunderland to the corner of Farmstead and Station Roads, near Manilla, Ontario.

- Additional Stage 2 Archaeological Assessment for Station 130, Part of Lot 29, Concession 6, Formerly Vaughan Township, York County, now City of Vaughan, Regional Municipality of York, ON (2019)
- Additional Stage 1 Archaeological Assessment for Station 130, Part of Lot 29, Concession 6, Formerly Vaughan Township, York County, now City of Vaughan, Regional Municipality of York, ON (2018)
- Stage 1-2 Archaeological Assessment: TransCanada MLV 501-3 Launcher and Receiver Project Township of St. Clair, Lambton County, ON (2018)
- Stage 3 Archaeological Assessment: TransCanada Southern Ontario Cathodic Protection Program (Location 1 BbGi-27) City of Belleville, ON (2018)
- Stage 4 Mitigation: TransCanada Southern Ontario Cathodic Protection Program (R138+15.38) Location 1 (BbGi-27) City of Belleville, ON (2018)
- Stage 1-2 Archaeological Assessment of seven pipeline maintenance locations and their affiliated access routes Haldimand County and City of Hamilton, ON (2016)
- Stage 1-3 Archaeological Assessment of 10 pipeline maintenance locations and their affiliated access routes Haldimand County and City of Hamilton, ON (2015)

### *Aggregate Resources Act*

#### **Archaeology Project Manager, Licensed Archaeologist**

- Stage 1-2 Archaeological Assessment, under the Ontario Aggregates Resources Act: Lafarge Goodwood Extension Property, 4900 4th Concession, Municipality of Uxbridge, Region of Durham, ON (2019). A Stage 1-2 archaeological assessment in support an official plan amendment application on a 18 hectare Lafarge Goodwood Property immediately north of the existing Lafarge Goodwood Pit.
- Stage 1-2 Archaeological Assessment, under the Ontario Aggregates Resources Act: Lafarge Brantford Extension Property Brant County, ON (2019). A Stage 1-2 archaeological assessment in support of an official plan and zoning by-law amendment application as well as a proposed license application for a Category 1, Class A pit below water. A single Euro-Canadian archaeological site was identified during the Stage 2 archaeological survey however the cultural heritage value or interest of the site was sufficiently documented through the Stage 2 archaeological assessment and no further archaeological work was recommended.
- Stage 1-2 Archaeological Assessment, under the Ontario Aggregates Resources Act: Lafarge Glen Morris Property, Brant County, ON (2019)
- Stage 1-2 and 3 Archaeological Assessment, under the Ontario Aggregates Resources Act: Pinkney Pit South, Part of Lot 13, Concession 5, West Side Centre Road, Former Township of Caledon, County of Peel, now Town of Caledon, Regional Municipality of Peel, ON (2017)

### *Northern Ontario and Mining Assessments*

**Gap Analysis of Environmental Baseline Programs – Archaeology (2021). Senior Reviewer (QA/QC)** - Archaeological gap analysis of the previous archaeological work done in association with the Goliath Gold project, the Goldlund Gold project and the Miller Gold project, collectively known as the Goliath Gold Complex.

**Archaeology Technical Memo – Upper Beaver Project Impact Assessment Phase II Baseline Study. Senior Reviewer (QA/QC)** - Review of relevant mapping and archaeological assessments related to the Upper Beaver Project Impact Assessment

**PETER POPKIN, Ph.D., CAHP, MCIfA**

*Associate Archaeologist, Team Lead*

---

Phase II Baseline Study to determine if there are gaps in coverage and determine if there are any outstanding archaeological requirements for the Upper Beaver Project.

**Stage 1 Archaeological Assessment, Station 119 Compressor Station Modification Project, Part of Lots 9 and 10, Concession 5 and Part of Lots 9 and 10, Concession 6, Geographic Township of Strong, District of Parry Sound, ON (2019). Archaeology Project Manager and Licensed Archaeologist** - Stage 1 archaeological assessment of Station 119 Compressor Station in the District of Parry Sound for TransCanada PipeLines Limited in advance of infrastructure modifications proposed as part of the Station 119 Compressor Station Modifications Project.

**Stage 1-2 Archaeological Assessment: Crocodile Creek, Additional Work, Lot 5, Concession 2, Township of Chamberlain, District of Temiskaming, ON (2018). Archaeology Project Manager and Licensed Archaeologist** - Stage 1-2 archaeological assessment of additional temporary workspace required for TransCanada PipeLines Limited remediation of a portion of existing infrastructure near Crocodile Creek, District of Temiskaming, Ontario.

**Stage 1-2 Archaeological Assessment: Prince 230 kV Structure Replacement, Class Environmental Assessment for Minor Transmission Facilities. District of Algoma, ON (2018). Archaeology Project Manager and Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 test pit survey in advance of transmission corridor structure replacement by Brookfield Renewable in the District of Algoma, Ontario. The archaeological assessment was conducted in support of a Class Environmental Assessment for Minor Transmission Facilities under the Environmental Assessment Act.

**Stage 1-2 Archaeological Assessment: Serpent 11k kV Structure Replacement, Class Environmental Assessment for Minor Transmission Facilities District of Algoma, ON (2018). Archaeology Project Manager and Senior Reviewer (QA/QC)** - Stage 1 background study and Stage 2 test pit survey in advance of transmission corridor structure replacement by Brookfield Renewable in the District of Algoma, Ontario. The archaeological assessment was conducted in support of a Class Environmental Assessment for Minor Transmission Facilities under the Environmental Assessment Act.

**Stage 1 Archaeological Assessment – Corridor Alternatives, Wataynikaneyap Power L.P. New Transmission Line to Pickle Lake Project, District of Kenora, ON (2017). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - A Stage 1 archaeological assessment was completed for Wataynikaneyap Power L.P., a partnership between Central Corridor Energy Group which represents 22 First Nations communities, FortisOntario Inc. and Renewable Energy Systems Canada Inc. for the New Transmission Line to Pickle Lake Project – Corridor Alternatives, as part of the Individual Environmental Assessment required under the Environmental Assessment Act. The project involved the study of two alternative corridors with areas of 63,445 hectares and 65,381 hectares.

**Stage 1 Archaeological Assessment, Wataynikaneyap Power New Transmission Line to Pickle Lake Project, District of Kenora, ON (2014). Archaeology Project Manager, Licensed Archaeologist, Senior Reviewer (QA/QC)** - A Stage 1 archaeological assessment was completed for Wataynikaneyap Power, a partnership between Central Corridor Energy Group which represents 18 First Nations communities, and Goldcorp Canada Ltd., as part of the Individual Environmental Assessment required under the Environmental Assessment Act. The project study area was two kilometres wide and approximately 300 kilometres long extending from Dinowic (east of Dryden) north to terminate at Pickle Lake, Ontario.

**Stage 2 Archaeological Assessment, Gowest Bradshaw Project, Part of Prosser and Tully Townships, Cochrane District, ON (2015). Internal Reviewer (QA/QC)** - Stage 2 archaeological assessment of the Bradshaw project area located approximately 42

kilometres north of Timmins, Ontario, as part of the environmental baseline studies for Advanced Exploration.

**Stage 1 Archaeological Assessment, Gowest Bradshaw Project, Part of Prosser and Tully Townships, Cochrane District, ON (2014). Internal Reviewer (QA/QC)** - Stage 1 archaeological assessment of the Bradshaw project area located approximately 42 kilometres north of Timmins, Ontario, as part of the environmental baseline studies for Advanced Exploration.

#### *Cultural Heritage*

##### *Heritage Planning*

**Cultural Heritage Resource Assessment for the Southeast Georgetown Secondary Plan (2021). Senior Reviewer (QA/QC)** - Senior review (QA/QC) for a Cultural Heritage Resource Assessment in support of the Southeast Georgetown Secondary Plan, a 131-acre plot in the Town of Halton Hills.

**Sir Adam Beck 1 Generating Station, Strategic Conservation Plan, Ontario Power Generation, Town of Niagara-on-the-Lake, Regional Municipality of Niagara, Ontario (2018). Senior Reviewer (QA/QC)** - Strategic Conservation Plan for the Sir Adam Beck 1 Generating Station.

**Bloor West Village Heritage Conservation District Study, City of Toronto, Ontario (2017-2018). Senior Reviewer (QA/QC)** - Heritage Conservation District Study for a prominent neighbourhood in the City of Toronto.

##### *Heritage Impact Assessment*

**Heritage Impact Assessment for 150 Randall Street, 125 Navy Street, and 143 Church Street, Town of Oakville, Ontario (2020). Senior Reviewer (QA/QC)** - Senior review for a Heritage Impact Assessment of a proposed mixed-use development on adjacent heritage properties and the Downtown Oakville Heritage Conservation District.

##### *Transit Project Assessment Process (TPAP)*

**Metrolinx OnCorr, Cultural Heritage Report for Galloway Road Grade Separation and Poplar Road Vehicle Crossing Closure, City of Toronto, ON (2020). Senior Reviewer (QA/QC)** - Cultural Heritage Report undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Lakeshore East Corridor Expansion Project Transit Project Assessment Process (TPAP).

**Metrolinx OnCorr, Cultural Heritage Reports for Wellington Grade Separation and McNaughton Grade Separation, Town of Aurora and City of Vaughan, ON (2020). Senior Reviewer (QA/QC)** - Cultural Heritage Report undertaken for Metrolinx triggered under Ontario Regulation 231/08 for Transit Projects and Greater Toronto Transportation Authority Undertakings (Transit Projects Regulation) as part of the Barrie Rail Corridor Expansion Project Transit Project Assessment Process (TPAP) Addendum.

##### *Environmental Assessment*

**Speedvale Avenue East Reconstruction EA, Cultural Heritage Assessment Report: Existing Conditions and Impact Assessment, City of Guelph, Ontario (2020). Senior Reviewer (QA/QC)** - Cultural Heritage Assessment Report for City of Guelph in support of the Speedvale Avenue East Reconstruction Municipal Class Environmental Assessment.

**Gordon Dean Avenue – Municipal Class EA, MTCS Checklist and Memo, City of Hamilton, Ontario (2020). Senior Reviewer (QA/QC)** - Cultural Heritage memo in

support of the Municipal Class Environmental Assessment for the proposed Gordon Dean Avenue and Collector Road 'B' project in the City of Hamilton, Ontario.

**West Street and Charing Cross Street Municipal Class EA, Cultural Heritage Assessment Report: Existing Conditions and Impact Assessment, City of Brantford, Ontario (2020). Senior Reviewer (QA/QC)** - Cultural Heritage Assessment Report for the City of Brantford in support of a Municipal Class Environmental Assessment for the West Street and Charing Cross Street intersection improvement project.

**Golder Associates Ltd. – Mississauga**

**Associate, Senior Archaeologist**

Carla Parslow has over 15 years experience in the Cultural Heritage Resource Management, including Aboriginal Engagement and over 20 years experience as an Archaeologist. Dr. Parslow is responsible for the technical review and quality assurance of archaeological, Aboriginal consultation and cultural heritage projects for the Golder's GTA Operations and throughout Ontario. Dr. Parslow has experience in leading teams on small scale projects (< \$20,000) as well as large complex heritage projects (> \$5,000,000).

**Employment History**

**Golder Associates Ltd. – GTA Operations**

Senior Archaeologist (2009 to 2017)

Responsible for the coordination, technical review and quality assurance of archaeological, Aboriginal consultation and cultural heritage projects for the Golder's GTA Operations.

**Ontario Ministry of Transportation – Downsview, Ontario**

Regional Archaeologist (2007 to 2009)

Primary responsibilities in this role include participation in the development of ministry archaeological/heritage policy and procedures; fulfil an advisory role to support regional cultural heritage and archaeological work and to provide consultative services to other regions upon request. Carla also was responsible for the management and coordination of the archaeological and cultural heritage elements of MTO projects meet the requirements of the Ontario Heritage Act and Environmental Assessment Act. Carla was also responsible for coordinating and building relationships between the Ministry of Transportation and Aboriginal communities to develop protocols for consultation for ongoing projects. She also liaised, advised and negotiated with senior management, ministry colleagues and external agencies including MOE, MTCS, MAA and MNR.

**Archaeological Services Inc. – Toronto, Ontario**

Assistant Manager, Environmental Assessment Division (2006 to 2007)

Assist the manager of the Environmental Assessment Division with management and coordination of archaeological and heritage assessments. Manage the cultural component for Individual Class EA assessments.

**University of Toronto – Toronto, Ontario**

Sessional Lecturer - ENV236 Human interaction with the Environment (2007)

**University of Guelph – Guelph, Ontario**

Sessional Lecturer - ANTH3650 Prehistory of Canadian Native People (2005)

**McMaster University – Hamilton, Ontario**

Sessional Lecturer - 2H03 Environment and Culture (2005)

## PROJECT EXPERIENCE – PROJECT DIRECTOR

As an Associate Carla Parslow is qualified to fulfil the role of Project Director in the Cultural Science. As Project Director, Dr. Parslow provides senior review and serves as Quality Assurance/Quality Control for the proposed project. Additionally, Dr. Parslow participates in high level project planning provide support for the Project Manager; assists with major issues, approves potential scope change requests; signs off on major deliverables; and signs off on approvals to proceed to each succeeding project phase. Since 2013, Dr. Parslow has served as Project Director on over 50 Cultural Science projects alone. Some notable projects include:

**Highway 407  
Expansion Project**  
Ontario

Stage 2 through 4 archaeological assessments on behalf of the Ontario Ministry of Transportation valued at \$850,000 (2013 - 2015).

**Boler Road Land  
Development**  
London, ON

Stage 3 and 4 archaeological assessments in support of Residential Land Development valued at \$176,500 (2014).

**Landmart H1 (AkGw-  
473) and Landmart H2  
(AkGw-474)**  
Brampton, ON

Stage 3 and 4 archaeological assessments in support of Residential Land Development on behalf of Landmart Homes valued at \$82,300(2014).

**Nyon Industrial Park**  
Port Colborne, ON

Stage 1 and 2 archaeological assessment in support of development of industrial lands values at \$48,500 (2012 - 2014)

## PROJECT EXPERIENCE – CULTURAL SCIENCES

**Lafarge - South  
Dundas Quarry**  
Ontario, Canada

Stage 1 and 2 archaeological assessment for the expansion of the Dundas North and Dundas South Quarries (2011).

**CBM - St. Marys**  
Ontario, Canada

Stages 1 through 3 archaeological assessment for the Darby and Dekoker properties (2010 and 2011).

## PROJECT EXPERIENCE – MINING - ABORIGINAL ENGAGEMENT AND ARCHAEOLOGICAL DUE DILIGENCE

**Laurentian Gold**  
Quebec, Canada

Provide due diligence archaeological assessment (desktop research) prior to drilling in Belmont Township, Quebec. Archaeological activities part of Clients Aboriginal engagement activities.

- Laurentian Gold**  
Ontario, Canada  
Provide due diligence archaeological assessment (desktop research) at two locations for the Proposed Goldpines Project, Ear Falls Township, District of Kenora. Archaeological activities part of Clients Aboriginal engagement activities. (2010)
- Lakeshore Gold Corp**  
Ontario, Canada  
Provide a Stage 1 (desktop research) and Stage 2 (property inspection) archaeological assessment for the Bell Creek proposed outfall at Porcupine River. Archaeological activities part of Clients Aboriginal engagement activities. (2010)
- Lakeshore Gold Corp**  
Ontario, Canada  
Provide a Stage 1 (desktop research) and Stage 2 (property inspection) archaeological assessment for exploratory drilling in Blakelock Township, District of Cochrane. Archaeological activities part of Clients Aboriginal engagement activities.(2010)
- Gowest Amalgamated**  
Ontario, Canada  
Provide support to client on Aboriginal engagement activities. Provided Aboriginal rights and interests document to identify those communities whose Aboriginal or Treaty rights are impacted by the potential project. Also provide support to client in presentations and meetings with community leaders and members.
- Osisko**  
Ontario, Canada  
Provide senior review and support for Aboriginal engagement activities and documentation as required.
- Cliffs Natural Resources**  
Ontario, Canada  
Assist client in initial engagement with several First Nation and Metis communities by providing reports on Aboriginal Rights and Interests for the Project Location as well as an Engagement Plan. Has also provided information to client on Traditional Knowledge Studies.

## PROJECT EXPERIENCE – TRANSPORTATION

- Stage 1-4 Archaeological Assessments Haldimand County**  
Ontario, Canada  
Archaeological component lead for the Wind Energy project totaling \$6 million in archaeological work. Duties involved providing technical review for Stage 3 and 4 reports; client communications; liaison with MTCS; and leading a team of archaeologists to complete the project and provide construction monitoring. (2012-2014)
- Stage 1 Archaeological Assessment Niagara Region**  
Ontario, Canada  
Project Director and Senior Reviewer for a Stage 1 archaeological assessment for a corridor approximately two kilometres in length along Regional Road 102 (Staley Avenue), City of Niagara, R.M. of Niagara, Ontario. This Stage 1 assessment was undertaken as part of a Schedule 'C' Municipal Class Environmental Assessment (Class EA). (2013)
- Stage 1 – 4 Archaeological Assessments - Middlesex, Welland, East Durham, Huron, and Bruce County**  
Ontario, Canada  
Project Manager for six major Wind Energy projects managing a combined budget of \$2.3 million. Project Management involved delivery of Stage 1 and 2 program for the various project. Also includes Project Management for Stage 3 and 4 archaeological assessments. Duties include scheduling and budgeting of projects; providing senior review for archaeological reports; client communications; liaison with MTCS. (2012-2013)

- Feasibility Study, City of Toronto**  
Ontario, Canada  
Archaeological/Cultural Heritage lead conduct an archaeological and cultural heritage review of the Yonge Street - Highway 401 Interchange Functional Planning Study (PT11-796) study area as part of a larger planning assessment study designed to inform planning decisions affecting the preferred configuration and alignment of the proposed interchange. (2013)
- Feasibility Study, City of Toronto**  
Ontario, Canada  
Archaeological/Cultural Heritage senior reviewer to conduct an archaeological and cultural heritage review of the Downtown Rapid Transit Study (TTC Contract No. G85-275) study area as part of a larger planning assessment study. (2012)
- Stage 1-2 Archaeological Assessment St. Catharines, ON**  
Ontario, Canada  
Project manager for Stage 1 background research and Stage 2 property assessment for two proposed sanitary sewer easements within the hydro corridor along Glen Morris Drive, in the City of St. Catharines, Ontario. Primary client contact, managed budgets and scheduling, and provided senior technical review for reports. (2011)
- Stages 1 - 3 archaeological assessment Durham Region**  
Ontario, Durham Region, Canada  
Proposed realignment of 4th Concession Road, Managed the Stage 1 - 2 archaeological assessment of property and Stage 3 archaeological assessment of one Euro-Canadian site. Conducted field review (Stage 1) for the project. (2011)
- Heritage and Archaeological Features Assessment - Metrolinx Georgetown South Extension**  
Ontario, GTA, Canada  
Project Coordinator for Stage 2 archaeological assessment and heritage bridge assessments. Managed Stage 2 archaeological assessment and archaeological monitoring plan for construction withing the railway right of way (2010-2011).
- Stage 1 - 4 archaeological assessment for the proposed Catholic Cemetery for the Diocese of Hamilton**  
Ontario, Halton Region, Canada  
Project manager for Stages 1 and 2 for part of Lot 1, Concession 2 new survey Geographical Township of Trafalgar, now town of Milton, Regional Municipality of Halton, Ontario. Project manager for Stage 3 and 4 of Location 11 (AiGw-539), a mid-19th century Euro-Canadian homestead. (2009-2010).
- Stage 1 and 2 archaeological assessment for the proposed Silverbrook Homes Subdivision located on a 4.75 hectare parcel on Elgin Mills Road in the Town of Richmond Hil**  
Ontario, R.M. of York, Canada  
Project Manager for Stage 1 and 2 archaeological assessments. Project management includes communications with Pitura Hussan on behalf of Silverbrook Homes; monitoring of work schedule and budget; and senior review of reports.

**Stage 1 and 2  
Archaeological  
Assessment for  
Proposed Subdivision  
at 771 Huron Road,  
Kitchener  
Ontario, R.M. of  
Waterloo, Canada**

Project Manager for Stage 1 and 2 archaeological assessments. Project management includes communications with Carlos DaSilva of East Forest Homes; monitoring of work schedule and budget; and senior review of reports.

**Stage 1 to 4  
Archaeological  
Assessment -  
Beechridge Farms  
Ontario, R.M. of  
Durham, Canada**

Project Manager for Stage 1 to 3 archaeological assessments. Project management includes communications with Sharon Dionne at Runnymede Homes; monitoring of work schedule and budget; and senior review of reports.

**ORC Stage 1 and 2  
Archaeological  
Assessment of Three  
Properties in the GTA  
Ontario/GTA, Canada**

Project Manager for Stage 1 and 2 archaeological assessments. Project management includes communications with Manager of Cultural Heritage at ORC; monitoring of work schedule and budget; and senior review of reports.

## PROJECT EXPERIENCE – PROJECT EXPERIENCE - MINISTRY OF TRANSPORTATION

**Stage 1 Archaeological  
Assessment of 5783  
Bloominton Road,  
Town of Whitchurch  
Ontario/York Region,  
Canada**

Stage 1 archaeological assessment of 5783 Bloominton Road for SCS Consulting Group on behalf of Camrock Developments. Project included both background research and field review.

**Highway 21 Culvert  
Replacement and  
Bridge Rehabilitation  
Ontario/Huron and Bruce  
County, Canada**

Stage 1 archaeological assessment of Highway 21 from Goderich to Owen Sound. Project included both background research and field review.

**407 East  
Transportation  
Corridor EA Study -  
MTO  
Ontario, Canada**

Aboriginal consultation management and coordination including all correspondence, workshops and information sessions as well as development of protocols for engagement. (2006-2009)

**Niagara to GTA and  
GTA West EA Study -  
MTO  
Ontario, Canada**

Aboriginal consultation research and advising to senior management on scope of consultation and plans of action. (2007-2009)

- Detroit River International Crossing - MTO**  
Ontario, Canada  
Stage 1 and 2 Archaeological Assessment: project management and coordination of fieldwork and research. Reviewed reports and working papers submitted to client; liaised with client. (2006-2007)
- Highway 427 Extension - MTO**  
Ontario, Canada  
Aboriginal consultation research and advising to senior management on scope of consultation and plans of action. (2008-2009)
- Stage 1 and 2 Archaeological Assessment for the Highway 7/12 and Columbus Road Intersection Widening, Town of Whitby, Regional Municipality of, Ontario. WP 2055-03-00 - MTO**  
Ontario, Canada  
Completed, through a phased investigation, a Stage 1 and 2 archaeological assessment of the proposed widening of the Highway 7/12 and Columbus road intersection. The investigation included sub-surface (test pitting) archaeological assessment and background assessment. A late nineteenth century historic site, the Croxall Site, was identified as part of the survey. (in house project 2008-2009)
- Stage 1 Archaeological Assessment of the QEW Ontario Street Carpool Parking Lot, Regional Municipality of Niagara WP 2063-08-00 - MTO**  
Ontario, Canada  
Stage 1 archaeological assessment of Carpool lot in QEW interchange. Project included both background research and field review. (in house project 2008)
- Southeast Collector Sewer Trunk EA - York and Durham Region**  
Ontario, Canada  
Assisted with aboriginal consultation through presentation of archaeological fieldwork and information to First Nation communities and advising client on engagement with respect to archaeological work.
- Lower Don Lands Infrastructure Municipal Class Environmental Assessment - City of Toronto**  
Toronto, Ontario  
Stage 1 Archaeological Assessment: research for assessment including addressing environmental, historical, and archaeological data, maps and GIS data and generated appropriate recommendations for addressing archaeological concerns with respect to the project and guided clients in understanding of the archaeological assessment process and requirements.
- Waterfront West Streetcars Environmental Assessment and Union Station to Exhibition Place Class EA - TTC**  
Toronto Ontario, Canada
